Economy and Money Market outlook 9MFY21

The Pakistan's economy showed some sign of recovery in overall economic activity during ongoing fiscal year marked by 7.45% growth in Large Scale Manufacturing Index vis-à-vis decline of 3.62% in the SPLY. The primary contributors to this growth were automobiles, petroleum products, 'Iron and steel' products, pharmaceutical and chemicals. This has encouraged improvement in broad macroeconomic indicators. Benign external account position backed by strong remittance flows, revival in industrial activity, and low interest rates continue to remain supportive to the overall growth.

However, the recent spike in the COVID-19 cases due to emergence of third, more virulent wave of Coronavirus has increased the risk of another slowdown in economic activity especially in the light of slower pace of vaccination in the country. Authorities have also imposed the partial lockdown in areas where infection ratios higher.

The headline inflation for March came in at 9.05%YoY and 0.36%MoM (in-line with street consensus). This took the 9MFY21 CPI reading to 8.34% as compared to 11.55% in SPLY. The rise in monthly inflation was primarily driven by food inflation with perishable food inflation increasing by 2.79%MoM and non-perishable by 1.5%MoM. However, housing and transport inflation remained contained during the outgoing month on the back of lower electricity fuel price adjustment and absence of any hike in petroleum product prices. We think inflation will continue to rise in the coming months on account of increasing international commodity prices and food prices, base effect, expected surge in food prices due to seasonal demand uptick in Ramadan, new revenue measures in the next year budget and further hike in utility tariffs. The

unexpected improvement in rupee-dollar parity may marginally dilute inflationary trends for the current fiscal year, we expect inflation to remain in the range of 8.5-9.5%.

In the recent MPC meeting, the central bank kept the policy rate unchanged at 7.0% citing that the existing accommodative monetary policy stance was well appropriate in supporting ongoing economic recovery. Further, the Governor also highlighted that the monetary policy would continue to be growth supportive as long as second round effects of recent rise in administered prices and other one-offs shocks in inflation did not materialize and inflation expectations remained well anchored. We expect the interest rates to rise by 150 to 200 bps. Larger part of the increase may take place in the next financial year.

On the external front, Pakistan posted a current account deficit of USD 50mn in March, relatively much lower as compared to deficit of USD 210 million in the previous month. Notwithstanding the above, the current account remained in surplus of USD 881 million during 8MFY21 vs deficit of USD 2,741 million in SPLY, mainly due to 24% and 111% increase in remittances and other current transfers respectively. During the rest of the fiscal year, though we see increasing imports on account of rising domestic economic activity, we think current account balance will remain manageable due to stable remittances inflow. For full fiscal year, we project a CAD of less than 0.5% of GDP. Also, overall balance of payment position is expected to remain comfortable where we expect FX reserves accretion of USD 4-5 billion in FY21 on account of contained current account deficit and strong inflows under financial account.

Continuing with its recent trend, the PKR further appreciated by 3.3% against USD during March due to a comfortable balance of payments position. As per latest data, Real Effective Exchange Rate (REER) for the month of Feb'21 was 97.1. The dollar Index appreciated ~2.6% during Mar'21 whereas PKR witnessed an appreciation of ~4.7% against its trading partners' currencies during the month. Therefore, we don't see any significant PKR appreciation from current levels as the Real Effective Exchange Rate (REER) a comparative indicator of purchasing power viz-a-viz currencies of trading partners indicate that rupee is rightly priced. There may be some depreciation in the next financial year.

As per provisional fiscal numbers, FBR collected PKR 3.39 trillion during 9MFY21, exceeding the target of PKR 3.29 trillion. We foresee strong revenue collection during the remaining period of current fiscal year on account of higher growth in the manufacturing sector, the major revenue spinner. We believe FBR will manage to collect PKR 4.7 trillion during the ongoing fiscal year. While, overall fiscal deficit is expected to be 7.5%, higher than the target deficit of 7.1% of GDP.

Fixed income Review for 9MFY21

During 9MFY21, market expectation of further rate cut faded away. With the subtle change in inflation expectation the short term yields picked up, while long term yields had already started to the upward adjustment since May'20 MPS. As a result, the market preferred remaining on the shorter end, investing heavily in 3 to 6 month T-Bills and floater rate PIBs.

During the period under review, investment via T-bills remained on the higher side. The market participation was ~PKR 15.6 trillion in treasury bills' auctions against the maturity of PKR 9.5 trillion while the Government accepted PKR 9.8 trillion. A clear preference was observed in 3 months tenor which constituted ~65% of the total participation followed by 6 months and 12 months with the participation of 25% and 10% respectively. However, in the last 5 auctions, participation behavior has changed where participation in 6M T-bills increased to 38% (vs. 25% in 9 months cumulatively) despite the monetary tightening outlook. The shift was primarily because the government offered the noteworthy average spread of ~28 bps in 6M T-bills over 3M T-bills cut-offs during these auctions.

A strong demand was witnessed in floater rate PIBs (particularly in 3Y), a participation of PKR 2.5 trillion took place in the floater rate PIB auctions, out of which the government accepted PKR 1.34 trillion. The Government further introduced quarterly resetting PIBs of 3Y, 5Y and 10Y PIBs along with the fortnightly resetting rate of 2Y PIB in addition to the existing semi-annually resetting floater rate PIBs. In contrast, participation in the fixed rate PIBs remained on the lower side as compared to the floater rate PIBs. The market participation was ~PKR 1.07 trillion in PIBs, out of which the government accepted ~PKR 457 billion.

Like what was observed in the conventional sovereign bond market, similar trends were evident in the case of GoP Ijara Sukuk. The market remained inclined towards variable rate Ijara sukuk. Total participation was PKR498 billion in six variable rate Ijara sukuk auctions and the government accepted PKR 321 billion. In contrast, only PKR 77.6 billion participation was witnessed in the fixed rate Ijara sukuk out of which, the government accepted PKR 53 billion.

Stock Market Review for 9MFY21

The benchmark KSE-100 index gained steam of positive momentum, closing 29.5% higher during the period under review. The notable performance of the index driven by 1) major decline in domestic COVID-19 infection and increase in recovery rates in the 1HFY21, 2) improvement in macro-economic indicators (trade balance, remittance and FX reserves), 3) significant decline in interest rates (625bps) which brought equities as the preferred assets class over other alternative assets, and 4) encouraging development on covid vaccine.

Prevailing bullish mood of the investors even ignored a few negative developments during the period including rising political uncertainty prior to Senate elections and downward revision in RoE's of IPPs' ROE. Local participants led the rally with individuals mopping up shares worth USD 248 million, companies USD 117 million and insurance companies USD 53 million, while foreigners continued to remain sellers offloading shares worth USD 295 million.

Future Outlook

From fundamental perspective, we have positive outlook on the equity market due to undemanding valuations and high earnings growth. Despite a hike in 10Yr PIB rates by 44bps in 1QCY21, the earnings yield differential from 10Y PIB yield is still 4.28% (14.70% vs. 10.42%), much higher than the average yield difference of 1.1% over the last 15 years. Large cap stocks in the banking, oil exploration, fertilizers and power sectors have underperformed the market and this in our opinion could drive the next leg of stock market performance. Moreover, market is currently trading at P/B of 1.1x as compare to its historical average P/B of 1.8x. In addition to this, market is also offering attractive DY of 7.1% as compared to average DY of 2.52% of regional Peers.

17 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

17.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2021 and June 30, 2020, the Fund held the following financial instruments measured at fair value:

18 IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

- The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

17. IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

17. IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

5.1.1 The Finance Act, 2015 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5 percent is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the company declaring bonus shares which shall be considered as final discharge of tax liability on such income. The Management Company of the Fund jointly with other asset management companies and Mutual Funds Association of Pakistan, has filed a petition in Honorable Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the mutual funds based on the premise of exemptions available to mutual funds under clause 99 of Part I and clause 47B of Part IV of Second Schedule to the Income Tax Ordinance, 2001. The Honorable Sindh High Court has granted stay order till the final outcome of the case. Certain investee companies of the Fund, in pursuance of the aforesaid amendment, withheld shares equivalent to 5% of bonus entitlement of the Fund having fair market value of Rs.1.94 million (June 2020: Rs.1.21 million) at year end. Such shares have not been deposited by the investee company in CDC account in Income Tax department. The Fund has included the shares withheld in its investments and recorded them at fair market value at year end. Furthermore, the Finance Act 2018 has brought an amendment in the Income Tax Ordinance 2001, whereby the 5% withholding tax on bonus shares has been withdrawn. Therefore, the bonus shares received during the period ended 31 March 2021, are not liable to withholding of Income Tax.

5.1.2 Following shares have been pledged with National Clearing Company of Pakistan for guaranteeing settlement of the Fund's trades in accordance with circular No. 11 dated 23 October 2007 issued by the Securities and Exchange Commission of Pakistan.

15 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2021 and June 30, 2020.

16 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

17 IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

15 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

15.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

	Carrying Amount			Fair value		
	----- As at March 31, 2021 -----			----- As at March 31, 2021 -----

16 IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

- The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

3.1 The accounting policies applied and the methods of computation of balances used in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the audited financial statements of the Fund for the year ended June 30, 2020.

3.2 The preparation of these condensed interim financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires management to make estimates, assumptions and use judgments that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision. In preparing these condensed interim financial statements, the significant judgments made by the management in applying the Funds' accounting policies and the key sources of estimation and uncertainty were the same as those applied to the financial statements as at and for the year ended June 30, 2020. The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements of the Fund for the year ended June 30, 2020.

3.3 Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on July 1, 2020. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

3.4 Standards, interpretations and amendments to the published accounting and reporting standards that are not yet effective

There are certain new amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on or after July 1, 2020. However, these will not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

5.1.1 These equity securities include 0.24 million shares (June 30, 2020: 0.24 million shares) pledged with National Clearing Company of Pakistan Limited having market value of Rs. 195.105 million (June 30, 2020: Rs. 110.15 million) for guaranteeing settlement of the Fund's trades in accordance with circular No. 11 dated October 23, 2007 issued by the SECP.

5.1.2 This includes gross bonus shares as per Fund's entitlement declared by the investee company. The Finance Act, 2014 had brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5 percent was to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax was to be collected at source by the investee company which was to be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Funds Association of Pakistan, filed a petition in Honorable Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under clause 47 B and 99 of Second schedule of the Income Tax Ordinance, 2001. Consequently, the Honorable Sindh High Court granted stay order till the final outcome of the case. As of period end, 9,709 shares (June 30, 2020: 9,709) of PSO having a fair market value of Rs. 2.239 million (June 30, 2020: Rs. 1.536 million) and 59,600 shares (June 30, 2020: 59,600 shares) of Searl having a fair market value of Rs. 14.722 million (June 30, 2020: 11.874 million) are disputed. Such shares have not been deposited by the investee company in CDC account of the department of Income Tax. The Management Company is of the view that the decision will be in its favour and accordingly has recorded the bonus shares on gross basis. Through Finance Act, 2018, the tax on bonus shares was withdrawn.

6. ADVANCE INCOME TAX

The Fund is exempt under clause 47(B) of Part IV of Second Schedule of the Income Tax Ordinance, 2001 (the ITO, 2001) from withholding tax under sections 150, 151 and 233 of the ITO, 2001. The Federal Board of Revenue (FBR), through a circular "C.No.1 (43) DG (WHT)/ 2008-Vol.II- 66417-R" date May 12, 2015, made it mandatory to obtain exemption certificates under section 159(1) of the ITO, 2001 from Commissioner Inland Revenue (CIR). Prior to receiving tax exemption certificate from CIR, various withholding agents have deducted advance tax under section 150 and 151 of the ITO, 2001 which has been recorded as advance tax receivable in these condensed interim financial statements.

17 COVID – 19

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

- The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network ("VPN") connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

- 5.1.1** The above equity securities include 0.003 million shares (June 30, 2020: 0.38 million shares) pledged with National Clearing Company of Pakistan Limited having market value of Rs. 59.4596 million (June 30, 2020: Rs. 49.592 million) for guaranteeing settlement of the Fund's trades in accordance with circular No. 11 dated October 23, 2007 issued by the SECP.
- 5.1.2** This includes gross bonus shares as per Fund's entitlement declared by the investee company. The Finance Act, 2014 had brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5 percent was to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax was to be collected at source by the investee company which was to be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Funds Association of Pakistan, filed a petition in Honorable Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under clause 47 B and 99 of Second schedule of the Income Tax Ordinance, 2001. Consequently, the Honorable Sindh High Court granted stay order till the final outcome of the case. As of period end, 13,558 shares (June 30, 2020: 13,558) of PSO having a fair market value of Rs. 3.127 million (June 30, 2020: Rs. 2.14 million) and 15,045 shares (June 30, 2020: 15,045 shares) of Searl having a fair market value of Rs. 3.717 million (June 30, 2020: 3 million) are disputed. Such shares have not been deposited by the investee company in CDC account of the department of Income Tax. The Management Company is of the view that the decision will be in its favour and accordingly has recorded the bonus shares on gross basis. Through Finance Act, 2018, the tax on bonus shares was withdrawn.

6. ADVANCE INCOME TAX

The Fund is exempt under clause 47(B) of Part IV of Second Schedule of the Income Tax Ordinance, 2001 (the ITO, 2001) from withholding tax under sections 150, 151 and 233 of the ITO, 2001. The Federal Board of Revenue (FBR), through a circular "C.No.1 (43) DG (WHT)/ 2008-Vol.II-66417-R" date May 12, 2015, made it mandatory to obtain exemption certificates under section 159(1) of the ITO, 2001 from Commissioner Inland Revenue (CIR). Prior to receiving tax exemption certificate from CIR, various withholding agents have deducted advance tax under section 150, 150A and 151 of the ITO, 2001 which has been recorded as advance tax receivable in these condensed interim financial statements.

Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. This ratio is within the maximum limit of 4.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as Shariah Compliant Equity Scheme.

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

ASSETS	As at March 31, 2021 (un-audited)			
	Fair Value			
	Level 1	Level 2	Level 3	Total

15.1 The Fund has not disclosed the fair values for other financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are reasonable approximation of fair value.

15.2 There were no transfers between various levels of fair value hierarchy during the period.

17 IMPACT OF COVID-19 ON THESE CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.

There are no contingencies and commitments outstanding as at 31 March 2021

12 TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2021 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

Pending Subscription		-	8,550
Auditors' remuneration payable		327	287
Other Payables		181	242
		667	9,079

- 10.1 Provision for Sindh Workers Welfare Fund is being made on a daily basis pursuant to MUFAP's recommendation to all its members on 12 January 2017 against the backdrop of the Sindh Revenue Board (SRB) going forward letter to certain mutual funds in January 2016 whereby SRB directed the mutual funds to register and pay Sindh Workers Welfare Fund (SWWF) for the accounting year closing on or after 31 December 2013. This is on the premise that mutual funds are included in definition of financial institutions in the Financial Institutions (Recovery of Finance) Ordinance, 2001 and hence SWWF is payable by them. Though MUFAP has taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF but as a matter of abundant caution the Management has recorded SWWF. This represents provision for Sindh Workers' Welfare Fund (SWWF) as at March 31, 2021. Had the SWWF not been provided for, the net assets value per unit would have been higher by Re 0.08.

11. CONTINGENCY

There were no contingencies and commitments outstanding as at March 31, 2021

12. TOTAL EXPENSE RATIO

The annualised total expense ratio of the Fund based on the current period results is 2.10% (March 31, 2020: 1.01%) which includes 0.23% (March 31, 2020: 0.09%) representing Government Levy, Sindh Workers' Welfare Fund, and the SECP fee. This ratio is within the maximum limit of 2.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as an Islamic Capital Protected Fund.

13. TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2021 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

14. EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

15. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES

Connected persons / related parties comprise of United Bank Limited (Holding Company of Management Company), UBL Fund Managers Limited (Management Company), Central Depository Company of Pakistan Limited as trustee of the Fund.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provisions of the NBFC Rules, NBFC Regulations and the Trust Deed respectively.

All other transactions with related parties / connected persons are in the normal course of business, at contracted rates and terms determined in accordance with agreed terms.

16. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

17 IMPACT OF COVID 19 ON CONDENSED INTERIM FINANCIAL STATEMENTS

The COVID – 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts. The Securities and Exchange Commission of Pakistan (SECP) had provided the following relaxation to CISs operating in Pakistan for classification of debt security for a specified period of time commencing from April 9, 2020 and expiring on March 31, 2021.

The timeline for classification of debt security as non performing has been extended from 15 days to 180 days overdue.

The Management Company is closely monitoring the situation and has invoked required actions to ensure safety and security of the staff and an uninterrupted service to the unit holders. Business Continuity Plans (BCP) for respective areas are in place and tested. The Management Company has significantly enhanced monitoring for all cyber security risks during these times from its information security protocols. The remote work capabilities were enabled for critical staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network (“VPN”) connections. Further, the Management Company has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber-attacks.

The Management Company has made an assessment of COVID-19 on the credit risk and liquidity risk and believes that there is no significant impact on the Fund.
