Economic Review and Outlook – FY25

The country largely preserved the macro-stability gains achieved in FY25 through 1QFY26, even as headline inflation rebounded late in the quarter, CPI peaked to 5.6% in September on flood-related food supply pressures and increase in wheat prices. In this context, the SBP maintained the policy rate at 11.0% in both the July 30 and September MPC meetings, emphasizing positive real rates alongside near-term risks from food, energy and the external environment.

On the external account, the balance shifted to modest monthly current-account deficits as imports normalized, the CA deficit in the month of July clocked around USD ~379mn and USD ~245mn in August, taking 2MFY26 CAD to ~USD 624mn. Exports and remittances remained resilient on a YoY basis in the two-month period, while SBP FX reserves hovered around USD ~14.3–14.4bn into late September. The rupee during the said period remained broadly stable.

On reforms and sovereign risk, S&P upgraded Pakistan to B- (from CCC+) in the month of July, followed by Moody's one-notch upgrade to Caa1 (Stable) in August, reflecting progress under the IMF program and improved external buffers. Domestically, authorities finalized a ~PKR 1.25trn circular-debt resolution framework for the power sector in September which is an important structural step toward energy-sector sustainability.

While growth momentum remains gradual, high-frequency indicators continue to improve, the demand recovery is visible in key sectors such as automobiles, cement, and fertilizers on a YoY basis as compared to corresponding period last year despite flood impact.

Stock Market Review

The domestic equity market delivered three consecutive up months, taking the benchmark KSE 100 to fresh highs by quarter end with cumulative increase of 39,866 points or 32% reaching an all-time high of 165,493points. The upbeat rally was majorly driven by Banking, cements and Fertilizer sector contributing 14,418pts, 4,613pts and 3,820pts respectively. Domestic institutional investors such as Mutual funds and Individual investors were net buyers of USD 206 mn and USD 89 mn, respectively. However, Foreigners and Banks continued to sell local equities, offloading shares amounting to USD126 and USD 150mn during 1QFY26.

Debt Market Review

Debt Market Review
During the first quarter of FY26, investor interest in Treasury bills remained robust. Total participation in T-bill auctions surged to PKR 9.37 trillion, with the government managing to raise approximately PKR 3.54 trillion—exceeding the target of PKR 2.97 trillion.

Notably, the 1-month T-bill attracted the highest interest, accounting for 41% of total bids. Demand also tilted toward the 12-month tenor, which comprised around 31% of overall participation. The 3-month and 6-month T-bills accumulated 15% and 13% of the total bids, respectively.

In terms of accepted bids, the government raised PKR 521 billion through 1-month papers, PKR 1.31 trillion via 3-months, PKR 500 billion in 6-months, and PKR 1.2 trillion in 12-month T-bills.

Fixed-rate Pakistan Investment Bonds (PIBs) continued to attract consistent investor interest during the quarter, with total bids (face value) reaching PKR 5 trillion—largely driven by expectations of a potential monetary policy easing.

Despite the strong appetite, the government adopted a cautious stance, accepting PKR 1.1 trillion in realized value (including non-competitive bids), closely in line with the auction target of PKR 1 trillion.

The accepted amount was distributed across various tenors: PKR 90 billion in 2-year zero-coupon PIBs, PKR 95 billion in 3-year, PKR 407 billion in 5-year, PKR 419 billion in 10-year, and PKR 102 billion in 15-year zero-coupon bonds.

On the floating-rate side, significant participation was observed, despite the fact that the Ministry is only issuing 10-year tenors. Total participation surged to PKR 3.7 trillion—well above the cumulative target of PKR 0.9 trillion. The government accepted PKR 557 billion in bids, with an average spread of approximately 85 basis points during the quarter.

In the Islamic segment, investor interest leaned heavily toward variable-rate Ijara Sukuk—particularly the 10-year tenor, which accounted for 71% of the total bids. Overall participation in these auctions reached

PKR 767 billion, while the government accepted only PKR 76.5 billion in the 10-year tenor, against a target of PKR 225 billion. All bids for the 5-year tenor were rejected.

Fixed-rate Ijara Sukuk also attracted considerable attention, drawing bids worth PKR 1.34 trillion. However, the government remained selective, accepting PKR 404 billion (realized value) against a target of PKR 375 billion. This included PKR 117 billion in 3-year, PKR 94 billion in 5-year, and a modest PKR 33 billion in 10-year discounted Ijara Sukuk. Additionally, a significant PKR 160 billion was raised through the 1-year discounted Ijara Sukuk.

Yield Curve comparison is given below:

Outlook

Looking ahead, inflation is expected to hover around ~7% in FY26, reflecting normalization of base effects and possible adjustments in utility tariffs, while external balances are likely to benefit from sustained remittances and restrained import demand. However, downside risks stem from geopolitical tensions, particularly the regional conflict and evolving global trade tariffs, alongside domestic vulnerabilities such as fiscal rigidities. During October authorities of IMF & Pakistan reached staff level agreement on the second review under Pakistan extended fund facility and the first review of Resilience and sustainability facility which shall continue reforms and will be pivotal for sustaining stability and gradually steering the economy towards higher growth.

Future Outlook

Looking ahead, inflation is expected to hover around ~7% in FY26, reflecting normalization of base effects and possible adjustments in utility tariffs, while external balances are likely to benefit from sustained remittances and restrained import demand. However, downside risks stem from geopolitical tensions, particularly the regional conflict and evolving global trade tariffs, alongside domestic vulnerabilities such as fiscal rigidities. During October authorities of IMF & Pakistan reached staff level agreement on the second review under Pakistan extended fund facility and the first review of Resilience and sustainability facility which shall continue reforms and will be pivotal for sustaining stability and gradually steering the economy towards higher growth.

ACKNOWLEDGEMENTS

We would like to thank our valued unit holders for their confidence and trust in UBL Fund Managers Limited. In addition, we would like to acknowledge the Securities and Exchange Commission of Pakistan, State Bank of Pakistan, Central Depository Company of Pakistan Limited (Trustee), and Shariah Advisory Board for their continued support, guidance and cooperation. In this connection, the Management Company submitted restated Trust Deed of the Fund which was duly registered during the year on August 16, 2021.

2 STATEMENT OF COMPLIANCE

2.1 These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

- Provisions of and directives issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and

- Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed have been followed.

2.2 The disclosures made in this condensed interim financial statements have, however, been limited based on the requirements of IAS 34. These condensed interim financial statements do not include all the information and disclosures required in a full set of financial statements and should be read in conjunction with the annual audited financial statements of the Fund for the year ended June 30, 2025..

2.3 In compliance with Schedule V of the NBFC Regulations, the directors of the Management Company declare that these condensed interim financial statements give a true and fair view of the state of affairs of the Fund as at September 30, 2025.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

3.1 The accounting policies applied and the methods of computation of balances used in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the audited financial statements of the Fund for the year ended June 30, 2025.

3.2 The preparation of these condensed interim financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires management to make estimates, assumptions and use judgments that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision. In preparing these condensed interim financial statements, the significant judgments made by the management in applying the Funds' accounting policies and the key sources of estimation and uncertainty were the same as those applied to the financial statements as at and for the year ended June 30, 2025. The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements of the Fund for the year ended June 30, 2025.

3.3 **Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period**

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on July 1, 2025. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

3.4 **Standards, interpretations and amendments to the published accounting and reporting standards that are not yet effective**

There are certain new amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on or after July 1, 2025. However, these will not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

11. CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments as at September 30, 2025 (June 30, 2025: Nil).

12 TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2025 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

13 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

16 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 **Fair value hierarchy**

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below provides information on financial assets or liabilities carried at fair values, by valuation methods.

	Carrying Amount			Fair value		
	As at Sep 30, 2025			As at September 30, 2025
