Directors' Report

The Board of Directors of UBL Fund Managers Limited is pleased to present the quarter end report of its UBL Liquidity Plus Fund (ULPF), UBL Liquidity Fund (ULF), UBL Cash Fund (UCF), UBL Money Market Fund (UMMF), UBL Government Securities Fund (UGSF), UBL Income Opportunity Fund (UIOF), UBL Growth and Income Fund (UGIF), UBL Stock Advantage Fund (USF), UBL Asset Allocation Fund (UAAF), UBL Financial Sector Fund (UFSF), UBL Pakistan Enterprise Exchange Traded Fund (UBLP-ETF), UBL Special Savings Fund (USSF) [comprising UBL Special Savings Plan - V (USSP-V)], and UBL Special Savings Fund II (USSF II) [comprising UBL Special Savings Plan X (USSP-X)], UBL Fixed Return Fund (UFRF) [comprising UBL Fixed Return Plan-I-U (UFRP-I-U), UBL Fixed Return Fund – II (UFRF-II) [comprising UBL Fixed Return Plan-II-M (UFRP-II-M), UBL Fixed Return Plan-II-U (UFRP-II-U), UBL Fixed Return Plan-II-AB (UFRP-II-AB) and UBL Fixed Return Plan-II-AA (UFRP-II-AA), UBL Fixed Return Fund – III (UFRF-III) [Comprising UBL Fixed Return Plan-III-S (UFRP-III-S), UBL Fixed Return Plan-III-X (UFRP-III-X), UBL Fixed Return Plan-III-Y (UFRP-III-Y) and UBL Fixed Return Plan-III-Z (UFRP-III-Z) UBL Fixed Return Fund – IV (UFRF-IV) [Comprising UBL Fixed Return Plan-IV-G (UFRP-IV-G), UBL Fixed Return Plan-IV-K (UFRP-IV-K), UBL Fixed Return Plan-IV-M (UFRP-IV-M) and UBL Fixed Return Plan-IV-O (UFRP-IV-O) for the Quarter Ended September 30, 2025.

Economic Review and Outlook – FY25

The country largely preserved the macro-stability gains achieved in FY25 through 1QFY26, even as headline inflation rebounded late in the quarter, CPI peaked to 5.6% in September on flood-related food supply pressures and increase in wheat prices. In this context, the SBP maintained the policy rate at 11.0% in both the July 30 and September MPC meetings, emphasizing positive real rates alongside near-term risks from food, energy and the external environment.

On the external account, the balance shifted to modest monthly current-account deficits as imports normalized, the CA deficit in the month of July clocked around USD ~379mn and USD ~245mn in August, taking 2MFY26 CAD to ~USD 624mn. Exports and remittances remained resilient on a YoY basis in the two-month period, while SBP FX reserves hovered around USD ~14.3–14.4bn into late September. The rupee during the said period remained broadly stable.

On reforms and sovereign risk, S&P upgraded Pakistan to B- (from CCC+) in the month of July, followed by Moody's one-notch upgrade to Caa1 (Stable) in August, reflecting progress under the IMF program and improved external buffers. Domestically, authorities finalized a ~PKR 1.25trn circular-debt resolution framework for the power sector in September which is an important structural step toward energy-sector sustainability.

While growth momentum remains gradual, high-frequency indicators continue to improve, the demand recovery is visible in key sectors such as automobiles, cement, and fertilizers on a YoY basis as compared to corresponding period last year despite flood impact.

Stock Market Review

The domestic equity market delivered three consecutive up months, taking the benchmark KSE 100 to fresh highs by quarter end with cumulative increase of 39,866 points or 32% reaching an all-time high of 165,493 points. The upbeat rally was majorly driven by Banking, cements and Fertilizer sector contributing 14,418pts, 4,613pts and 3,820pts respectively. Domestic institutional investors such as Mutual funds and Individual investors were net buyers of USD 206 mn and USD 89 mn, respectively. However, Foreigners and Banks continued to sell local equities, offloading shares amounting to USD126 and USD 150mn during 1QFY26.

Debt Market Review

Debt Market Review

During the first quarter of FY26, investor interest in Treasury bills remained robust. Total participation in T-bill auctions surged to PKR 9.37 trillion, with the government managing to raise approximately PKR 3.54 trillion—exceeding the target of PKR 2.97 trillion.

Notably, the 1-month T-bill attracted the highest interest, accounting for 41% of total bids. Demand also tilted toward the 12-month tenor, which comprised around 31% of overall participation. The 3-month and 6-month T-bills accumulated 15% and 13% of the total bids, respectively.

In terms of accepted bids, the government raised PKR 521 billion through 1-month papers, PKR 1.31 trillion via 3-months, PKR 500 billion in 6-months, and PKR 1.2 trillion in 12-month T-bills.

Fixed-rate Pakistan Investment Bonds (PIBs) continued to attract consistent investor interest during the quarter, with total bids (face value) reaching PKR 5 trillion—largely driven by expectations of a potential monetary policy easing.

Despite the strong appetite, the government adopted a cautious stance, accepting PKR 1.1 trillion in realized value (including non-competitive bids), closely in line with the auction target of PKR 1 trillion.

The accepted amount was distributed across various tenors: PKR 90 billion in 2-year zero-coupon PIBs, PKR 95 billion in 3-year, PKR 407 billion in 5-year, PKR 419 billion in 10-year, and PKR 102 billion in 15-year zero-coupon bonds.

On the floating-rate side, significant participation was observed, despite the fact that the Ministry is only issuing 10-year tenors. Total participation surged to PKR 3.7 trillion—well above the cumulative target of PKR 0.9 trillion. The government accepted PKR 557 billion in bids, with an average spread of approximately 85 basis points during the quarter.

In the Islamic segment, investor interest leaned heavily toward variable-rate Ijara Sukuk—particularly the 10-year tenor, which accounted for 71% of the total bids. Overall participation in these auctions reached

PKR 767 billion, while the government accepted only PKR 76.5 billion in the 10-year tenor, against a target of PKR 225 billion. All bids for the 5-year tenor were rejected.

Fixed-rate Ijara Sukuk also attracted considerable attention, drawing bids worth PKR 1.34 trillion. However, the government remained selective, accepting PKR 404 billion (realized value) against a target of PKR 375 billion. This included PKR 117 billion in 3-year, PKR 94 billion in 5-year, and a modest PKR 33 billion in 10-year discounted Ijara Sukuk. Additionally, a significant PKR 160 billion was raised through the 1-year discounted Ijara Sukuk.

Yield Curve comparison is given below:

Tenors	PKRV as at 30th Sep 2025	PKRV as at 30th June 2025	Change (1QFY26)
3 Months	11.01	11.01	0.00
6 Months	10.99	10.89	0.10
1 Year	11.02	10.85	0.17
3 years	11.18	11.15	0.03
5 Years	11.48	11.40	0.08
10 Years	12.00	12.30	-0.30

Outlook

Looking ahead, inflation is expected to hover around ~7% in FY26, reflecting normalization of base effects and possible adjustments in utility tariffs, while external balances are likely to benefit from sustained remittances and restrained import demand. However, downside risks stem from geopolitical tensions, particularly the regional conflict and evolving global trade tariffs, alongside domestic vulnerabilities such as fiscal rigidities. During October authorities of IMF & Pakistan reached staff level agreement on the second review under Pakistan extended fund facility and the first review of Resilience and sustainability facility which shall continue reforms and will be pivotal for sustaining stability and gradually steering the economy towards higher growth.

FUNDS' PERFORMANCE AND ANNOUNCEMENTS

1) UBL LIQUIDITY PLUS FUND (ULPF)

UBL Liquidity plus Fund (ULPF) is an open end Money Market Fund with investment objective to provide attractive daily returns while maintaining comparatively high liquidity. f) UBL FIXED RETURN PLAN-IV-E (UFRP-IV-P)

The Plan earned a total income of PKR 0.131 million for the quarter ended September 30, 2025. The earnings of the Fund represent markup / interest income on bank balances and Government Securities. After accounting for expenses of PKR 0.009 million, the Fund managed to earn a net income of PKR 0.122 million. The net assets of the Fund were nil as at September 30, 2025 as the fund was matured during the year.

Future Outlook

Looking ahead, inflation is expected to hover around ~7% in FY26, reflecting normalization of base effects and possible adjustments in utility tariffs, while external balances are likely to benefit from sustained remittances and restrained import demand. However, downside risks stem from geopolitical tensions, particularly the regional conflict and evolving global trade tariffs, alongside domestic vulnerabilities such as fiscal rigidities. During October authorities of IMF & Pakistan reached staff level agreement on the second review under Pakistan extended fund facility and the first review of Resilience and sustainability facility which shall continue reforms and will be pivotal for sustaining stability and gradually steering the economy towards higher growth.

ACKNOWLEDGEMENTS

We would like to thank our valued unit holders for their confidence and trust in UBL Fund Managers Limited. In addition, we would like to acknowledge the Securities and Exchange Commission of Pakistan, State Bank of Pakistan, Central Depository Company of Pakistan Limited (Trustee), and Shariah Advisory Board for their continued support, guidance and cooperation. The Board would also like to take this opportunity to express its appreciation to the employees for their dedication, commitment, enthusiasm and hard work.

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 UBL Pakistan Enterprise Exchange Traded Fund, was established under the Trust Deed executed between UBL Fund Managers Limited (the Management Company - a wholly owned subsidiary company of United Bank Limited), as the Management Company, and the Central Depository Company of Pakistan Limited (CDC) as the Trustee. The Trust Deed was executed on November 28, 2019 and was approved by the Securities and Exchange Commission of Pakistan (SECP) on February 13, 2020 in accordance with the requirements of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules). The Fund commenced its operations from March 20, 2020. The Trust Deed was previously registered under The "Trust Act 1882" and now has been registered under "The Sindh Trust Act 2020" (the Sindh Trust Act) as empowered under the Eighteenth Amendment to the Constitution of Pakistan. The Fund is required to be registered under the Sindh Trust Act. Accordingly, the above-mentioned Trust Deed has been registered under the Sindh Trust Act".
- 1.2 The Management Company of the Fund is registered with the SECP as a Non-Banking Finance Company under the NBFC Rules. The registered office of the Management Company is situated at 4th Floor, STSM Building, Beaumont Road, Civil Lines, Karachi.
- 1.3 The Fund is an Open Ended Exchange Traded Mutual Fund and is listed on Pakistan Stock Exchange (PSX).The Fund has commenced its operations on March 20, 2020.
- 1.4 The objective of the Fund is to track the performance of the Benchmark index. The index shall be periodically re-balanced & reconstituted as specified in this document in order to provide long-term capital appreciation and dividends yield to the investors.
- 1.5 VIS Credit Rating Company has reaffirmed management quality rating of AM1 on January 09, 2025.
- 1.6 Title to the assets of the Fund are held in the name of the Central Depository Company of Pakistan Limited as Trustee of the Fund.

2 BASIS OF PREPARATION

The annual These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017, the provisions of and directives issued under the Companies Act, 2017, along with part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the 'NBFC Regulations') and requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance, 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention unless stated otherwise. These financial statements have been prepared by following accrual basis of accounting except for cash flow information.

2.3 Functional and presentation currency

These financial statements are presented in Pakistani Rupees, which is the Fund's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis.

3 APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS TO PUBLISHED APPROVED ACCOUNTING AND REPORTING STANDARDS

3.1 New accounting standards, amendments and IFRS interpretations that are effective for the year ended June 30, 2025

The following standards, amendments and interpretations are effective for the year ended June 30, 2025. These standards, amendments and interpretations are either not relevant to the Company's operations or did not have significant impact on the financial statements other than certain additional disclosures.

**Effective date
(annual periods
beginning on or
after)**

3.1 New accounting standards, amendments and interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, amendments and interpretations are either not relevant to the Fund's operations or are not expected to have significant impact on the Fund's financial statements other than certain additional disclosures.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The principal accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied unless otherwise stated.

4.1 Financial assets

Initial Measurement

Investments are initially measured at their fair value except in the case of financial assets recorded at FVTPL, transaction costs are added to, or subtracted from, this amount.

Classification

On initial recognition of an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Financial assets at FVTPL are recorded in the statement of financial position at fair value. Changes in fair value are recorded in profit and loss. Dividend income from equity instruments measured at FVTPL is recorded in profit or loss when the right to the payment has been established.

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognized.

However, SECP through its SCD/AMCW/RS/MUFAP/2017-148 dated November 21, 2017 have deferred the applicability of above impairment requirements in relation to debt securities for mutual funds and accordingly, basis defined in Circular No. 33 of 2012 dated, October 24, 2012 will be followed.

4.1.1 Classification and subsequent measurement

Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective and are instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

All equity investments are required to be measured in the "Statement of Assets and Liabilities" at fair value, with gains and losses recognised in the "Income Statement", except where an irrevocable election has been made at the time of initial recognition to measure the investment at FVOCI.

On adoption of IFRS-9, the Fund has exercised the irrevocable option and has classified all equity instrument as 'at fair value through other comprehensive income' (FVOCI). The Fund can exercise the irrevocable option for future purchases of investments which are acquired with long term objective. However, securities acquired with trading objective or for which irrevocable option is not exercised will be classified as 'at fair value through profit or loss'.

The dividend income from equity securities classified under FVOCI and FVTPL are to be recognised in the Income Statement. However, any surplus / (deficit) arising as a result of subsequent movement in the fair value of equity securities classified as FVOCI is to be recognised in other comprehensive income and is not recycled to the Income Statement on derecognition. The gain or loss on disposal of equity instruments classified as 'at FVOCI' is transferred to "Undistributed income".

4.1.2 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost and FVOCI. The Fund recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects :

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecast of future economic conditions.

The 12 months ECL is recorded for all financial assets in which there is no significant increase in credit risk from the date of initial recognition, whereas a lifetime ECL is recorded for all remaining financial assets

4.1.3 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Fund commits to purchase or sell the asset. Regular way purchases / sales of assets require delivery of securities within two days from the transaction date as per the stock exchange regulations.

4.1.4 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement.

4.2 Derecognition

The Fund derecognises a financial asset when the contractual right to the cash flows from the financial asset expires or it transfers the right to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

4.3 Financial liabilities

All financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired.

4.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.5 Provisions

Provisions are recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.6 Net asset value per unit

The net asset value (NAV) per unit, as disclosed on the Statement of Assets and Liabilities, is calculated by dividing the net assets of the Fund by the number of units in circulation at the period end.

4.7 Unit holders' fund

Unit holders' fund representing the units issued by the Fund, is carried at the net asset value representing the investors' right to a residual interest in the Fund assets.

4.8 Issue and redemption of units

Units issued are recorded at the offer price determined by the Management Company when the Fund is open for subscription. The purchase / offer price open for subscription, shall be calculated and announced by the Management on a daily basis and be made available to the public at the office and branches of the Distributors and will also be published daily on the Management Company's and MUFAP's website.

The offer price shall be equal to the sum of:

- (i) the Net Asset Value (NAV) as of the close of the previous business day (historical pricing);
- (ii) such amount as the Management Company may consider an appropriate provision for duties and charges; and
- (iii) such sum shall be adjusted upward to the nearest paisa.

Investors can sell the units at market prices on PSX which may be above or below actual NAV of the Fund. Only the Authorized Participants can directly redeem units with the Fund in Creation Unit size or multiples thereof. Units can be redeemed on in-kind basis calculated on the basis of NAV determined on the business day prior to the day of receipt of redemption application. The Management Company at the time of announcing the NAV of the Fund, would also announce the composition of Portfolio Deposit and the Cash Component required to be exchanged against redemption of Units.

4.9 Distributions to unit holders

Dividend distributions and appropriations are recorded in the period in which the distributions and appropriations are approved.

4.10 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net asset value (NAV) per unit on the issuance or redemption date, as the case may be, of units and the NAV per unit at the beginning of the relevant accounting period.

Under SECP circular no. SCD/AMCW/ETF/240/2020, It is clarified that due to hybrid nature of the exchange traded funds, the treatment of element of income as defined in clause (xiib) of regulation (2) of the Non-Banking Finance Companies and Notified Entities Regulations, 2008 is not applicable in case of Exchange Traded Funds. Element of Income in case of Exchange Traded Funds shall be taken to Income statement both at the time of issuance and redemption of units to the extent it pertains to Income Statement. Accordingly, as per Regulation 63 of the NBFC Regulations, 2008, Accounting Income for ETF shall also include element created at the time of issuance and income paid on redemption of units.

4.11 Revenue recognition

- Gains / losses arising on sale of investments classified as financial assets at fair value through OCI is recognized in the other comprehensive income statement on the date when the transaction takes place.
- Dividend income is recognised when the right to receive dividend is established i.e. on the date of book closure of the investee company / institution declaring the dividend.
- Mark-up on bank deposits is recognised using effective yield method.

4.12 Expenses

All expenses chargeable to the Fund including remuneration of the Management Company, Trustee fee and annual fee of the SECP are recognised in the Income Statement on an accrual basis.

4.13 Taxation

The Fund's income is exempt from Income Tax as per Clause 99 of Part I of the Second Schedule of the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains whether realised or unrealised is distributed amongst the unit holders. The Fund is also exempt from the provision of Section 113 (minimum tax) under Clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

4.14 Earnings / (loss) per unit

Earnings / (loss) per unit (EPU) is calculated by dividing the net profit / loss of the year after taxation of the Fund by the weighted average number of units outstanding during the year. EPU has not been disclosed as in the opinion of the management determination of weighted average units for calculating EPU is not practicable.

4.15 Cash and cash equivalents

Cash and cash equivalents comprise of deposits and current accounts maintained with banks. Cash equivalents are short term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investments and other purposes.

9	ADVANCE TAXATION		

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule of the Income Tax Ordinance 2001 (ITO 2001). Further, the Fund is exempt under clause 47(B) of Part IV of Second Schedule of ITO 2001 from withholding of tax under section 150, 151 and 233 of ITO 2001. The Federal Board of Revenue through a circular "C.No.1 (43) DG (WHT) / 2008-Vol.II66417-R" dated May 12, 2015, made it mandatory to obtain exemption certificates under section 159(1) of the Income Tax Ordinance, 2001 from Commissioner Inland Revenue (CIR). Prior to receiving tax exemption certificate(s) from CIR various withholding agents have deducted advance tax under section 151 of ITO 2001. The management is confident that the same shall be refunded after filing refund application within stipulated time.

21 FINANCIAL RISK MANAGEMENT

The Board of Directors of the Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Board is also responsible for developing and monitoring the Fund's risk management policies.

The Fund's risk management policies are established to identify and analyze the risks faced by the Fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

The fund preliminarily invest in a portfolio of equity securities. These Fund's activities expose it to a

21.1 Market risk

Market risk is a risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices.

The Management Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Investment Committee and regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises of three types of risk; currency risk, interest rate risk and price risk.

21.2 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund, at present, is not exposed to currency risk.

21.3 Interest rate risk

Interest rate risk is a risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

a) Cash flow interest rate risk

The Fund is exposed to cash flow interest rate risk for balances in certain savings account, the interest rates on which range between 9% to 9.5% (2024: 8% to 20%) per annum.

Yield / interest rate sensitivity position for financial instruments is based on the earlier of contractual repricing or maturity date as follows:

b) Fair value interest rate risk

Since the Fund currently does not have any fixed rate instruments that are impacted by market interest rates, therefore, it is not exposed to fair value interest rate risk.

Particulars	As at September 30, 2025					Total
	Effective yield interest rate	Exposed to yield/ interest rate risk			Not exposed to yield/ interest rate risk	
		Upto three months	More than three months and upto one year	More than one year

Off-balance sheet gap (b)		-	-	-	-	-
Total interest rate sensitivity gap (a) + (b)		6,259	-	-		
Cumulative interest rate sensitivity gap		6,259	-	-		

21.4 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer or factors affecting all similar financial instruments traded in the market.

21.5 Credit risk

Credit risk represents the risk of a loss if the counter parties fail to perform as contracted. The Fund's credit risk mainly arises from saving with banks and financial institutions and credit exposure arising as a result of dividend receivable on equity securities.

Management of credit risk

For banks and financial institutions, the Fund keeps deposits with reputed institutions. Credit risk on account of dividend receivable is minimal due to the statutory protections. All transactions in listed securities are settled / paid for upon delivery using the system of National Clearing Company of Pakistan Limited. The risk of default in these transactions is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the investment guidelines approved by the Investment Committee, its Trust Deed and the requirements of the NBFC Rules and the regulations and the guidelines given by the SECP from time to time.

Concentration of credit risk

Concentration of credit risk arises when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. The Fund mainly deals in equity securities which are primarily subject to price risk. The Fund's portfolio of

21.6 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to the daily settlement of equity securities and to daily cash redemption requests on a regular basis. Units are redeemable at the holders' option based on the Fund's net asset value per unit, at the time of redemption, calculated in accordance with the Fund's constitutive document and guidelines laid down by the SECP.

The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Fund's reputation. The Fund's policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily realised.

As per Regulation 62 of the NBFC Regulations, an Asset Management Company managing a CIS, shall pay SECP an annual fee of 0.095% (0.095%) of the average annual net assets. During the year, Management Company has charged the fee accordingly. The fee is payable annually in arrears.

22 FAIR VALUE AND CATEGORIES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

As per the requirements of IFRS 7 (Financial Instruments: Disclosures) and IFRS 13 (Fair Value Measurement), the Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level - 1)
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly
- Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level - 3).

	Level 1	Level 2	Level 3
Equities	183,369	-	-
Total	183,369	-	-

23 Valuation techniques

The Fund has not disclosed the fair values for these financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are reasonable approximation of fair value.

23.1 Transfers during the year

No transfers were made between various levels of fair value hierarchy during the year.
